

# Scan. Streamline. Save. Dockware + MyCarrier

Capture dimensions, weight, photos, and more – right where the product sits. Get fast and accurate mobile pallet sizing on the go that integrates seamlessly into your MyCarrier workflow.

No manual measuring. No duplicate entry. No expensive dimensioners.

## Digitize Your Freight

- ✓ Save 5-10+ minutes per shipment
- ✓ Reduce re-weigh and re-class charges
- ✓ Capture photo-backed documentation
- ✓ Avoid costly hardware investments
- ✓ Keep everything connected in MyCarrier

## How it works:

Scan → Capture → Sync

Dimensions are captured and instantly written into your shipment.

## Bring accuracy to the dock, and confidence to every shipment

When dimensions are captured correctly the first time, everything downstream works better.

Mobile pallet scanning helps your team move faster, reduce billing surprises, and create documentation you can trust – integrated into MyCarrier.
